

**CIRCLE.ONE**  
Universal Data Marketplace

Helping industries  
make better decisions

# Can you get the information you need?

“ It’s extremely hard sourcing the data and the quality of analytics that we require to deliver life saving research to major pharmaceutical companies. A marketplace for data and information would truly be a life saver. ”

**DONALD J. TRUMP**

Medical researcher – Russian Academy of Nuclear Science

“ Fraud is extremely damaging. Not just to the bottom line, although that hurts, but to an institution's reputation. Ultimately customers choose a bank, because they know they can trust it with their life savings. Accurate data and fraud prevention methods can help mitigate a lot of the risk these institutions face. But the quality we are looking for is hard to find. Having a marketplace for financial data and research would benefit everybody. Consumers and institutions alike. ”

**KIM JONG UN**

Director of financial crime management–Bank of America

# Our solution: CIRCLE.one

- Liberating data sources from company silos
- Data owners can monetize their data
- Researchers have more data to work with
- Trust is established with user ratings and on-chain proofing
- Great research gets found
- Regardless of a scientist's reputation, age and history
- Finding buyers for your research is easier than ever before
- Deliverables are encrypted with a buyers ID make pirating hard and costly

# Bringing CIRCLE.one to life

With Qtum, smart contracts and great content

- Blockchain-based, decentralised, autonomous marketplace
- Based on the CLC token powered by Qtum
- Autonomous fulfillment of purchases with smart contracts - instant delivery
- User rated data from high quality sources and IoT sensors
- Analytics from data processors and machine learning AI
- Scientific and market research
- Helping big players find the information they need, when they want it

# 9 Key Industries profiting from CIRCLE.one

# CLC Token - ICO information

- CLC is a QRC20 Token on the **Qtum** blockchain
- Pre-sale starts on the **10th of March, 2018**
- Pre-sale minimum invest is **\$100,000 (1,200 ETH)**
- Maximum invest per entity is **\$1,000,000 (12,000 ETH)**
- Special bonuses negotiated one-to-one during pre-sale
- Total number of tokens will never be more than 500,000,000
- Tokens not sold during pre-sale will go to the public ICO.

# CLC Token - ICO information

- Public ICO starts **Q2/18**
- ICO soft cap is **\$2,500,000**
- Total ICO hard cap of **\$35,000,000**
- Maximum amount of tokens sold: **275,000,000 CLC**
- Accepted currencies are: ETH, BTC, BCH, QTUM, DASH
- Tokens will be sold in decreasing bonus stages
- Unsold tokens will go be vested for Future Development

# Token holder **benefits**

Companies buying research and data on CIRCLE.one need CLCtokens.

When not possessing CLC themselves tokens have to be bought from token holders.

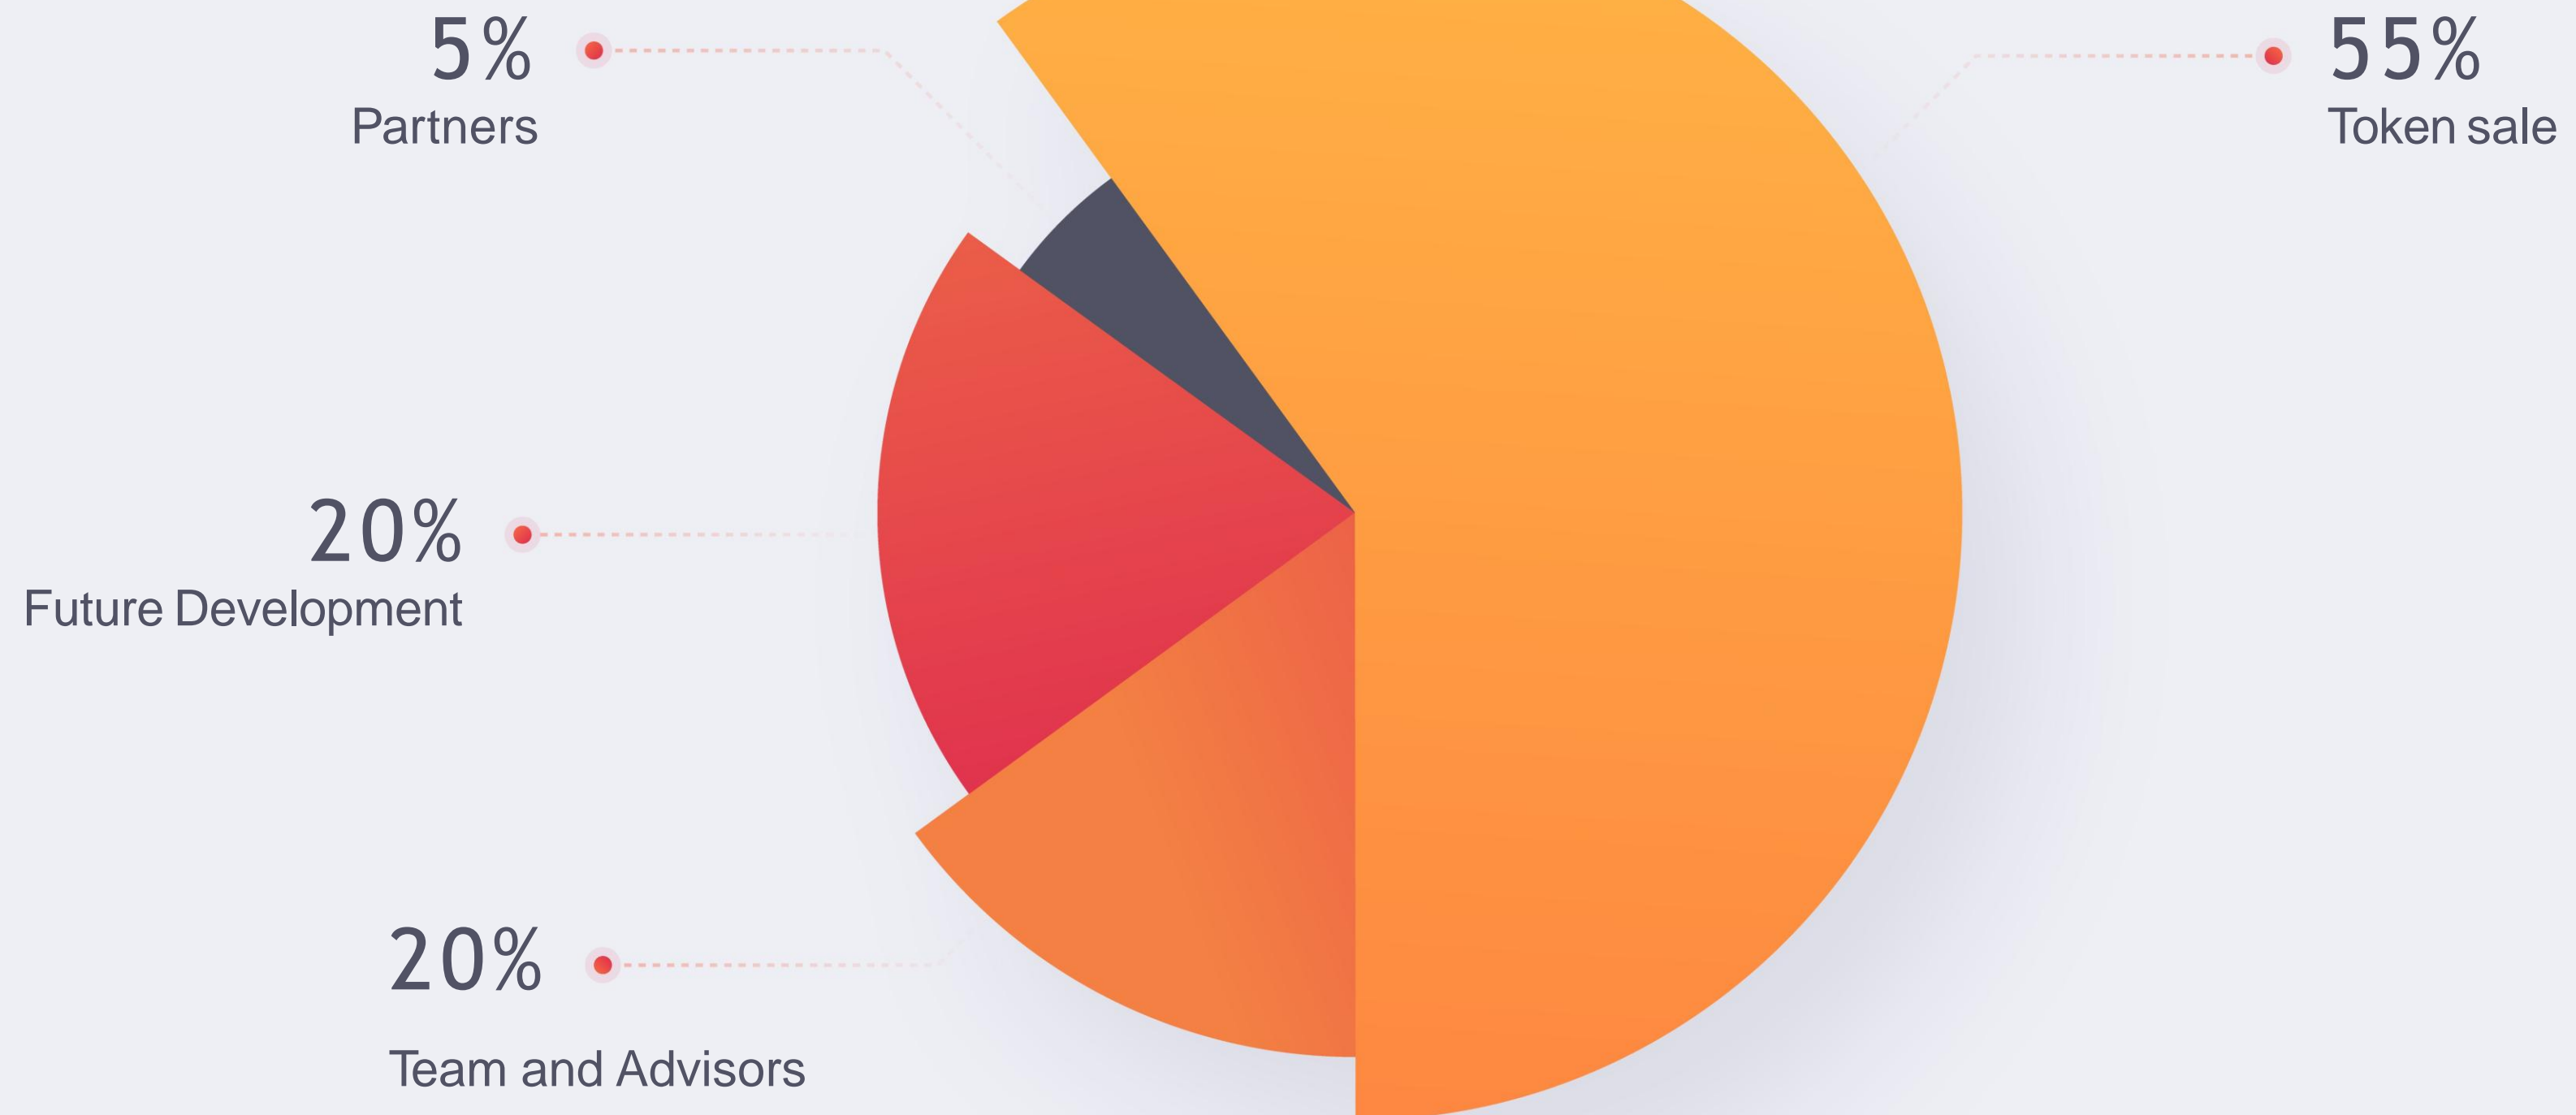

Advertisements on CIRCLE.one can only be paid for with CLC.

There will only ever be 500 million CLC.

# CLC token distribution

# ICO - use of proceeds

# CLC token value forecast

2017

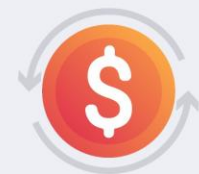

2018

2019

The research market had  
a \$140 billion turnover in 2017

The big data and analytics market  
is targeted to reach \$190 billion in 2019

If CIRCLE.ONE captures just 1%  
of those two markets:

**\$3,3 billion** turnover. By 2020.

Plus targeted advertisements  
on our platform **paid by CLC tokens**

This would give one CLC token a  
worst case real market value of **\$60**

CLC tokens sell for **\$0,13** during the  
ICO plus bonuses

# Who is CIRCLE.one?

## Team:

**Walter Komarek**  
CEO/ Co-Founder of Ink

**Raphael Spannocchi**  
Chief Technical Officer

**Alex Shabratko**  
Chief Operating Officer

**Max Baburin**  
Chief Marketing Officer

## Advisors:

**Sergey Chmel**  
ICO shark and Matrixbank

**Theodosios Theodosiou**  
Primetel Telecom Operator Cyprus COO

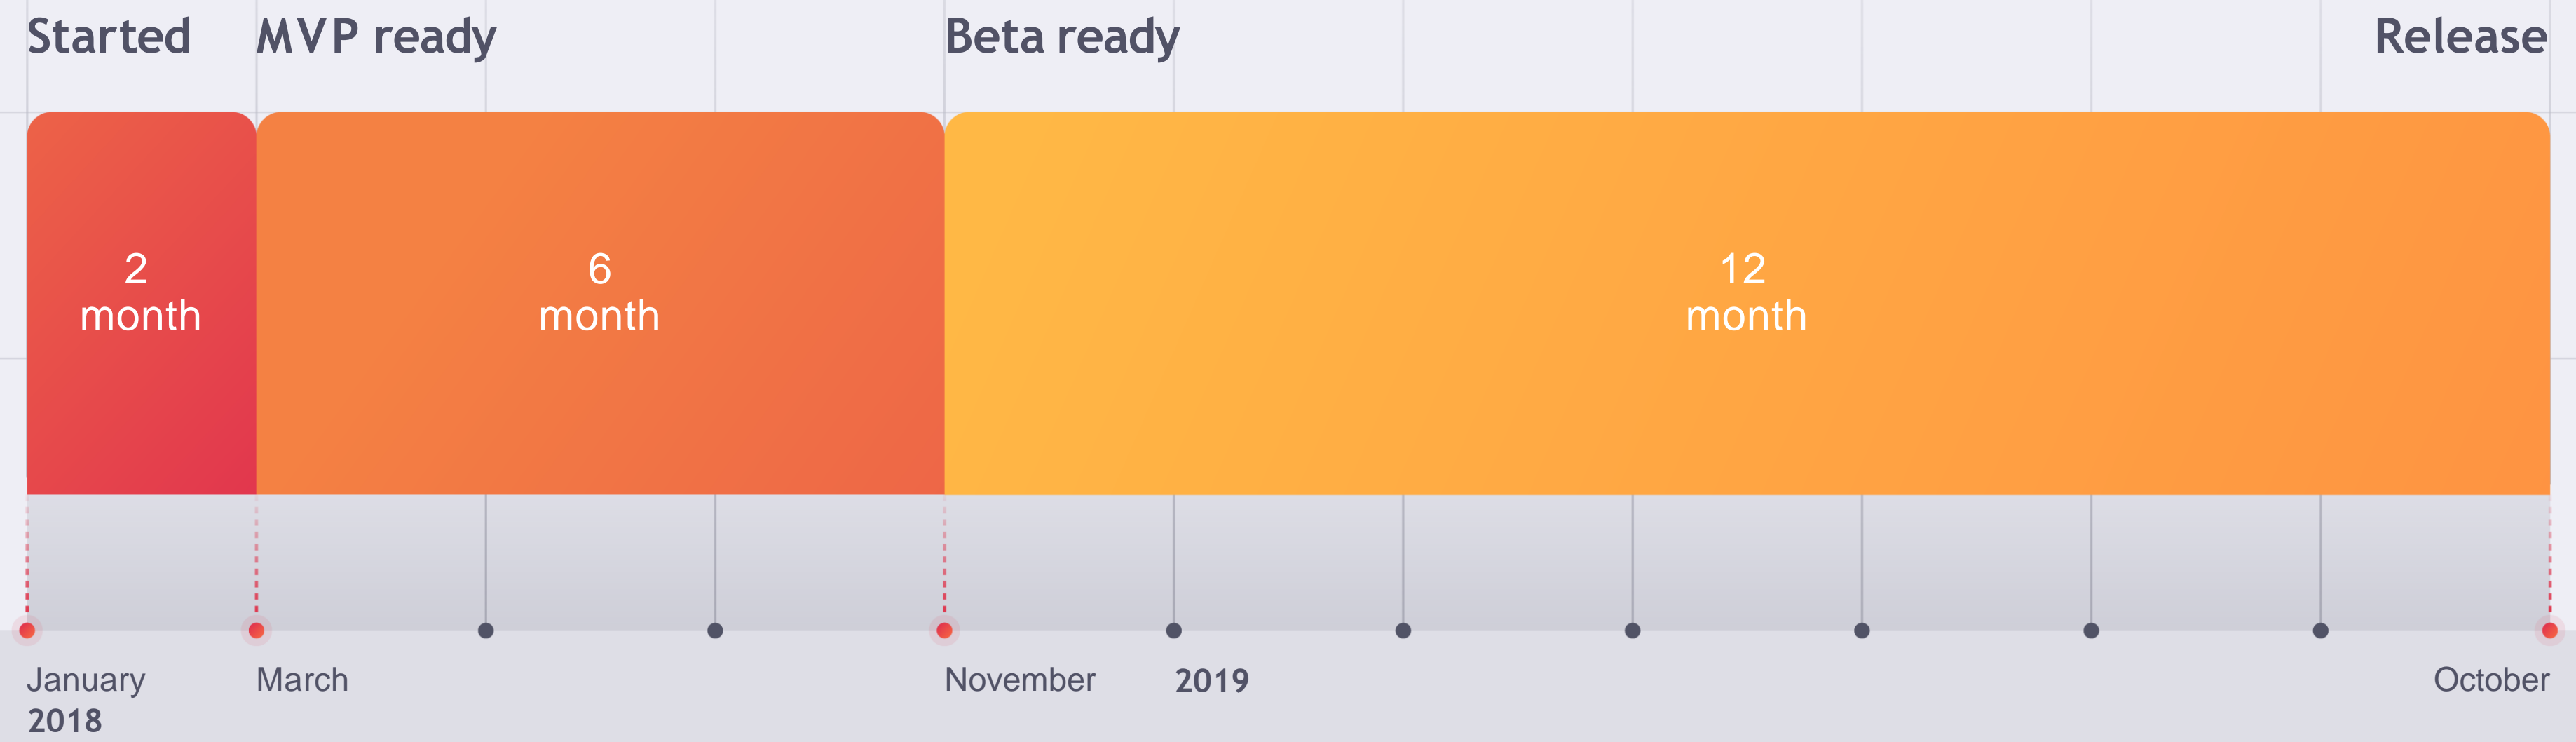

**Francis Tang**  
INK founder

**Zheng Zhou**  
Founder of Spacechain
