The Ink Solution

___

A set of blockchain solutions based on global cultural industry

Ink seeks to solve many problems existing in the cultural content industry through the blockchain in order to achieve fast IP rights verification, free trade of cultural assets and barrier-free communication of values and information so as to build a new ecosystem for the global cultural industry.

Ink Overview

Credible Sovereign Consortium Chain

The uniquely designed basic blockchain network for cultural industry

Cultural Assets Trading Platform

IP assets trading platform, commercialized mechanism and token system
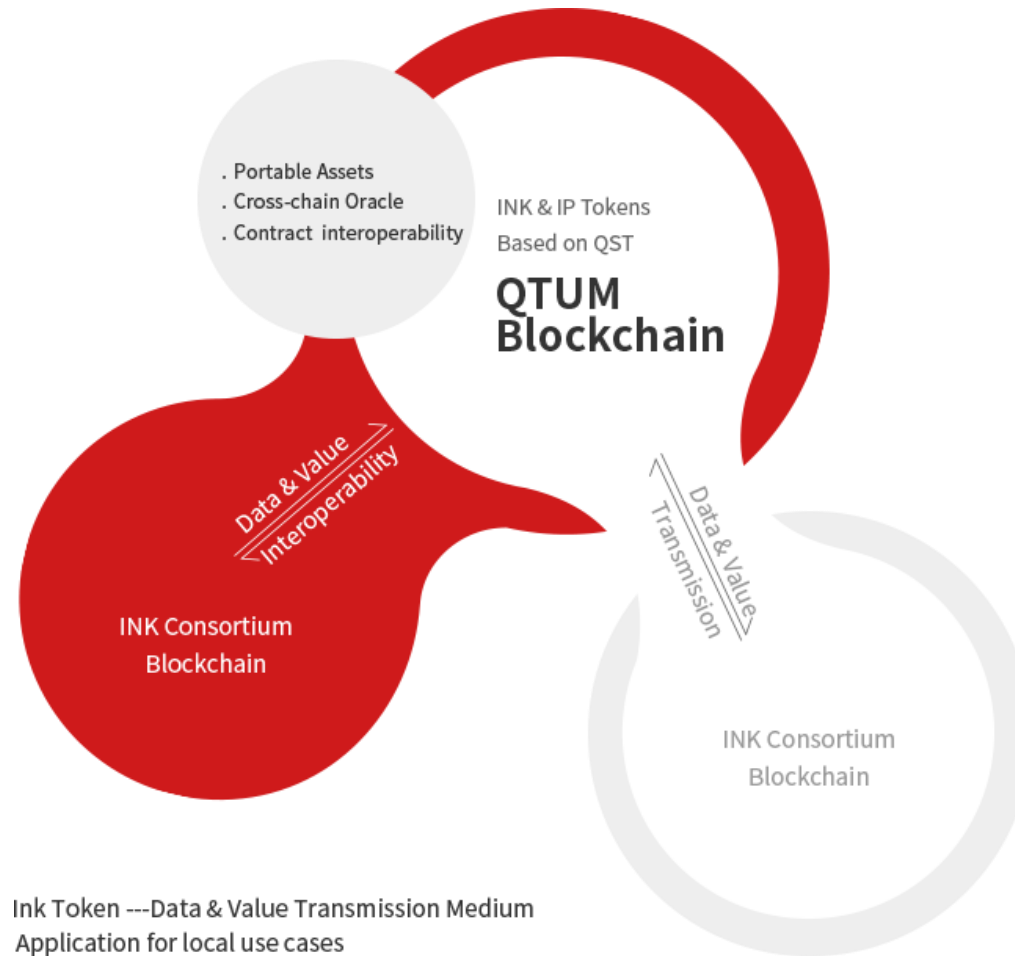

Copyright Assets Management

Blockchain copyright registration and protection
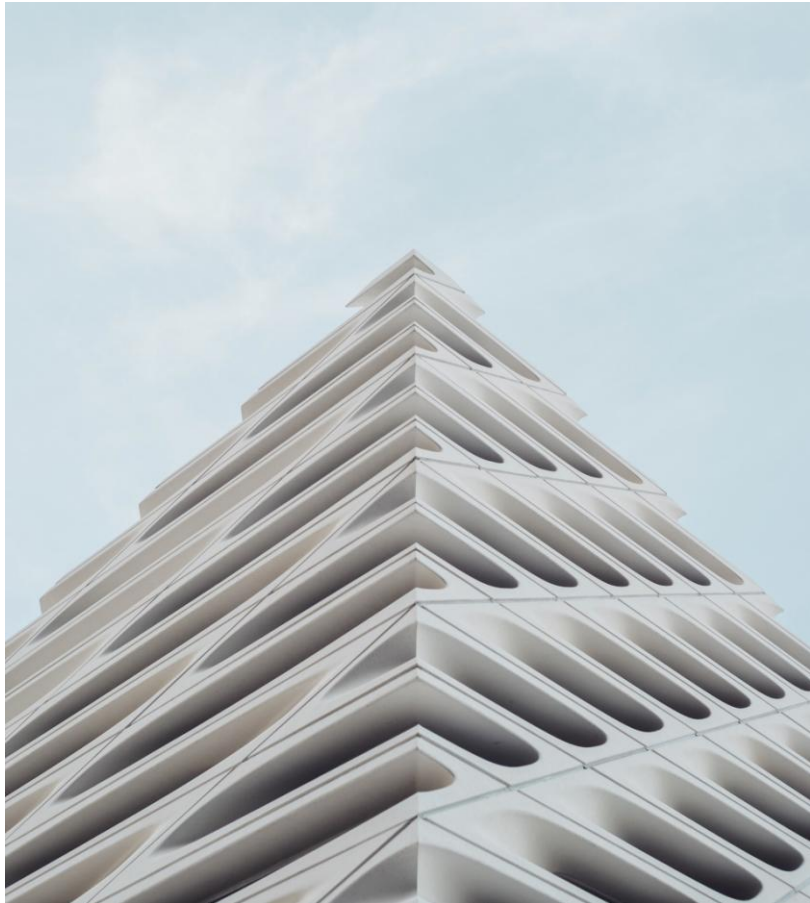

Cross-Chain Interaction Protocol

Values and information can flow effectively between the public chain and the Consortium chain

. Portable Assets
. Cross-chain Oracle
. Contract interoperability

INK & IP Tokens
